

# Single Regional Strategies

Driving sustainability....?

*Andrew Lee – SDC Director*

*23 May 2008*

# SDC Position on SNR

## Good things:

- 😊 **Positive language**
- 😊 **Focus on sustainable development**
- 😊 **Definition of sustainable growth**
- 😊 **Climate change – key reference**
- 😊 **Low carbon economy**

# SDC Position on SNR

But major concerns remain about:

- ☹ **Good governance**
- ☹ **Exclusion of SEEPs**
- ☹ **Role of SD Regional Champion Bodies**

# SDC Position on SNR

**And some things to clarify.....**

☹️ **Developing capacity of RDAs for expanded role**

☹️ **Tasking Framework**

# SRS – good ambition, big questions!

- **Relationship to existing *Regional Sustainable Development Framework* or *Integrated Regional Framework*?**
- **How to apply “Strategic requirements and provision” to *deprivation* and to *environmental limits* as well as to *economy*?**
- **Enabling a low carbon economy?**
- **Welcome aspiration to simplify process - but proposed timescale unrealistic?**

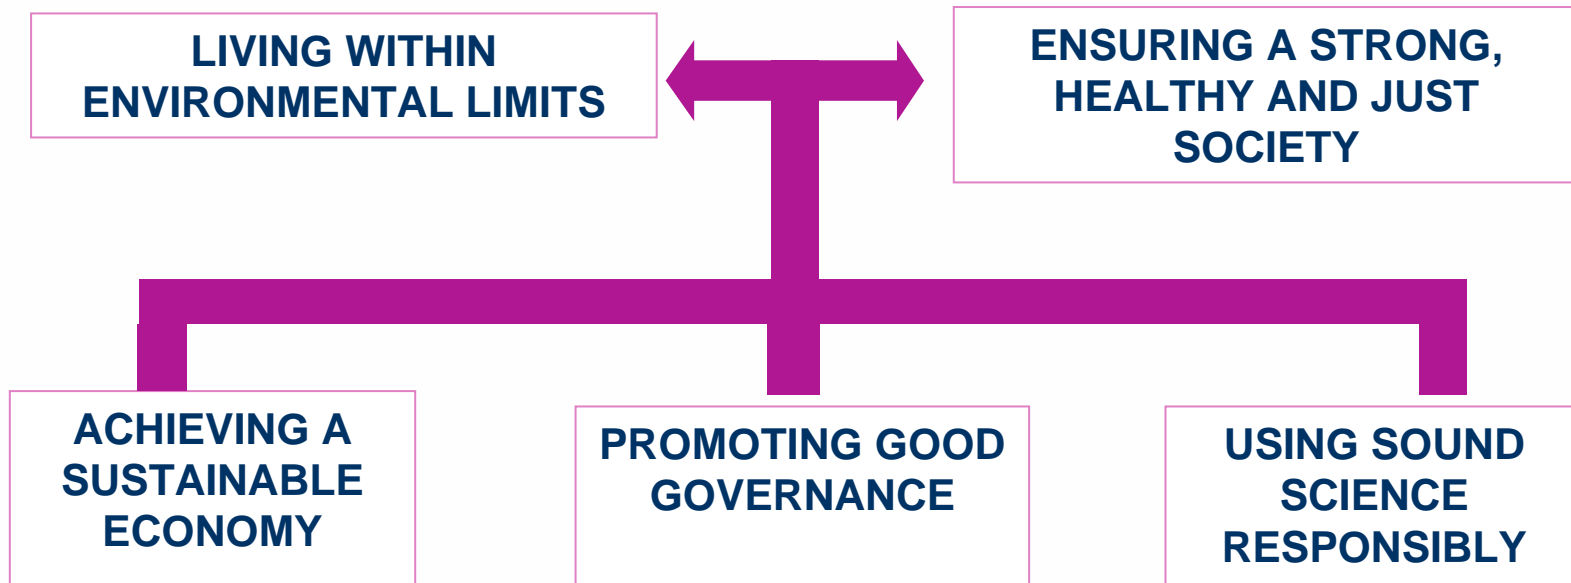

# Clear Direction needed.....

## **New SRS must combine with (eg)**

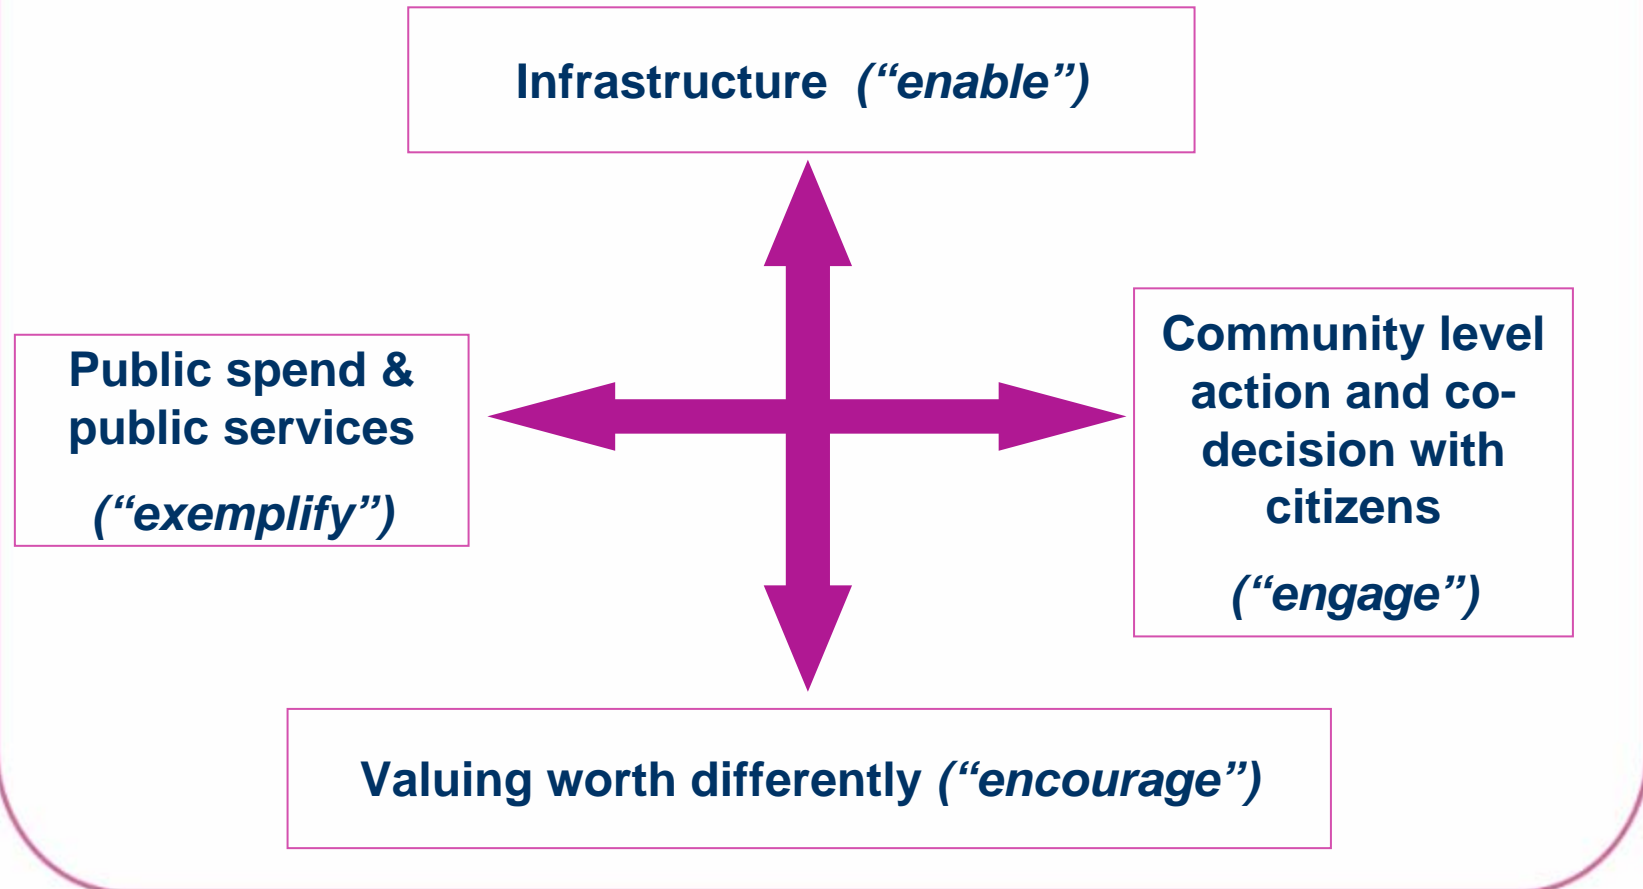

- ☹ **National Policy Statements**
- ☹ **Multi Area Agreements**
- ☹ **Local Area agreements**

**To help to enable more sustainable lives.**

# Guiding Principles for Sustainable Development

# What might this look like?

# SDC Role in the SNR Process

- **Inside track - working with Departments**
- **Working with the RDAs**
- **Regional Champion Body Network**
- **National Core Sustainability Framework**

**Sustainable**
