

# **Sustainable Development 2010**

*Jayne Ashley*

*17 June 2008*

# SDC Position on SNR

## Good things:

- 😊 **Positive language**
- 😊 **Focus on sustainable development**
- 😊 **Definition of sustainable growth**
- 😊 **Climate change – key reference**
- 😊 **Low carbon economy**

# SDC Position on SNR

**But major concerns remain:**

- ☹ **Good governance**
- ☹ **Exclusion of SEEPs**
- ☹ **Role of SD Regional Champion Bodies**

# SDC Position on SNR

## And some things to clarify.....

- ☹ **Developing capacity of RDAs**
- ☹ **Tasking Framework**
- ☹ **Relationship with Local Authorities**

# Good ambition, big questions

- Relationship with *Regional Sustainable Development Framework* or *Integrated Regional Framework*?
- How to apply “Strategic requirements and provision” to *deprivation* and to *environmental limits* as well as to economy?
- Enabling a low carbon economy?
- Welcome aspiration to simplify process - but proposed timescale unrealistic?

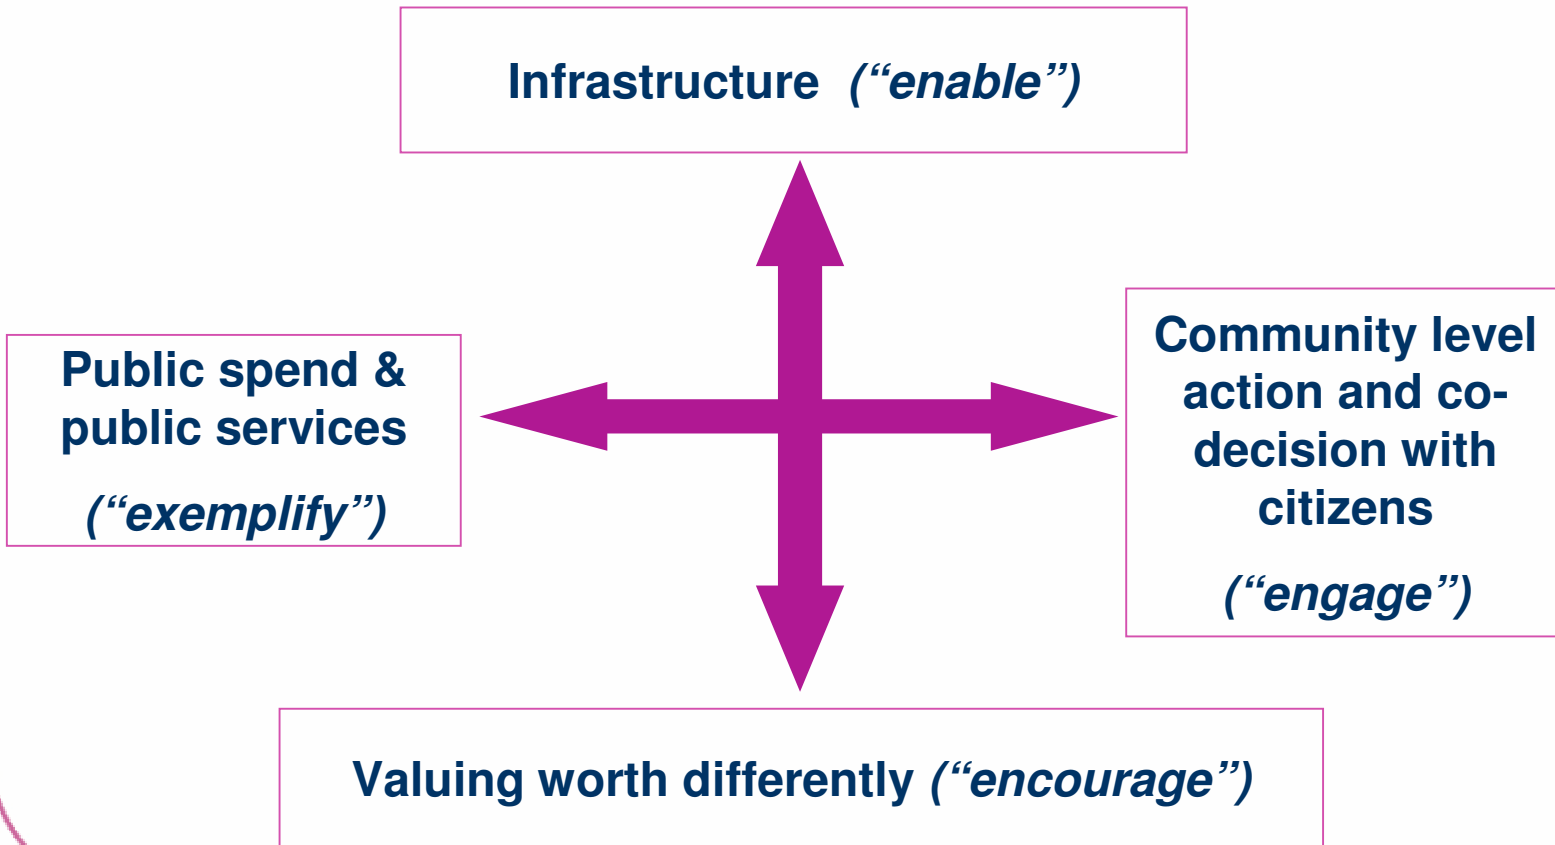

# Clear Direction needed.....

**New SRS must combine with (e.g.)**

- ☹ **National Policy Statements**
- ☹ **Local Development Frameworks**
- ☹ **Multi Area Agreements**
- ☹ **Local Area agreements**

**To help to enable more sustainable lives**

# What might this look like?

# SDC Role

- **Inside track - working with Departments**
- **Working with the RDAs**
- **Regional Champion Body Network**
- **National Core Sustainability Framework**
- **Capacity for Local Sustainability**
